

ABOUT US

Warehouse Services Inc. offers complete end-to-end supply chain solutions to our clients. We deliver a competitive advantage to each client's supply chain by implementing best practices, which support the delivery of cost-effective solutions.

Warehouse Services Inc. understands the importance of having the right product, at the right place, at the right time. We provide clients with customized solutions to meet their unique needs.

In today's ever changing, complex logistics environment, customers expect and deserve more than a traditional warehouse provider. Warehouse Services Inc. understands clients' needs, which is why we are continually developing customized integrated solutions that focus on:

- Improved efficiencies
- Continuous improvement
- Perfect order fulfillment
- Reducing new product time to market
- Quick response to changes in consumer demand
- Building sustainability into our clients' supply chain
- Strong supply chain disruption mitigation strategy
- Expertise in growing our clients' market share in emerging economies

Our integrated solutions can begin with site selection, network strategy development and construction, as well as operation of our client's distribution facility. We provide manufacturing services, kitting and sequencing, inventory management, JIT delivery using our dedicated transportation fleet and implementation of IT solutions, which deliver value to our clients. We will work with your team to develop the best solution for the distribution of your market offering.
